### Unmatched Simplicity

Velocity's web payment solutions range from fully hosted, customer-facing interfaces to back end transaction processing gateway configurations. Velocity offers a full range of web-payment solutions to meet your specific needs. Self-service web payments for your customers can be easily branded to your precise requirements, including payment options and custom data capture and billing information.

### Scalability and Easy Back-Office Integration

Velocity web solutions are rapidly deployable and integrate effortlessly with existing systems. You receive access to a full range of online, real-time reports and payment administration tools. Velocity offers turnkey implementation and installations, comprehensive training, consulting services and dedicated technical support, combined with 24-hour user support for customers.

### Comprehensive Payment Solution

In addition to the web payment interface, every Velocity solution includes real time, online reporting for cash management and reconciliation, as well as full transaction search capability for customer support activities. Beyond traditional payment gateways, Velocity offers a comprehensive payment solution for both one-time and recurring consumer payments.
