**Fully Integrated For All Payment Channels**  
**Improved Forecasting & Revenue Management**  
**Intuitive Search Capabilities**  
**Supports Customer Support & Back Office Operations**

## Easily manage your collections with Velocity's complete suite of online reports.

### Transaction Research

Velocity contains easy to use search forms allowing administrators to quickly locate specific transactions when responding to customer inquiries. Administrators can search across payment channels in real-time using ad hoc queries. Search parameters include, but are not limited to, transaction date, confirmation number, partial card number, and customer account number.

**Settlement Batch Detail**

Tender Type	Total Principal	Total Conv Fee	Total Sales	# Sales	Total Credits	# Credits	Net Amount
American Express	\$542.00	\$0.00	\$542.00	1	\$0.00	0	\$542.00

### Features

- Online, Real-time Reports
- Historical Transaction Database
- Reconciliation
- Enterprise Reporting
- Advanced Analytics
- Ad Hoc Reporting
- Electronic Interfaces

### Cash Management Reporting

Velocity's Cash Management Reports are designed specifically for administrators to analyze cash flow and distribution of revenue for improved forecasting and revenue cycle management. Processing details can be viewed for a defined timeframe and itemized by payment tender. All online reports are exportable to CSV, Excel, XML, and PDF formats.

### Enterprise Reporting

Velocity's Enterprise Reporting option allows today's complex organization to view transaction data across all payment channels and business units for an enterprise view of revenue. Web, IVR, over-the-counter, and over-the-phone payments are consolidated into a single view of collections across the enterprise. The reporting interface can be expanded further to include interchange qualification rates and transaction cost analysis.
