Fully Compliant Payment Solutions

Velocity understands that payment processing is a serious business. It's critical for merchants to work with a service provider that understands the rules governing payment processing. Velocity is fully compliant with card association regulations associated with the collection of convenience fees. Our stringent adherence to these rules and regulations will give you peace of mind so you can focus on meeting the payment needs of your customers .

No Cost Solutions

Velocity can offer electronic payment solutions at no cost to you. The convenience fee that is paid by the customer will be used to offset all of the merchant services fees, as well as any technology and telecommunication-related fees. In this model, 100 percent of the collected principal will be deposited into your depository account, with Velocity retaining the collected convenience fee.

Full Range of Products

Velocity offers a full suite of payment solutions that can be easily setup to process flat or percentage-based convenience fee payments in either a single or dual transaction configuration. Velocity enables you to process payments and assess convenience fees over the web, at the point of sale, over the phone in a call center environment or via an interactive voice response system. Additionally, Velocity's bill presentment & electronic billing solutions are convenience fee enabled.
